INTER — BODY, UI, CAPTIONS

Pick how many layers you want, choose a colour for each, set your hardware finish and fastening.

A lot of UK brands sell PVC-coated webbing dog collars. What you actually get for your money differs more than you'd think. Layered and riveted, not stitched or printed. Made to your dog's neck, not a size band. 19 webbing colours, 5 hardware finishes, your call.

Quick reference

For print and embroidery — Pantone-equivalent matches are a printer's job, but the closest standards are:

- Moss **#3E5236** — close to Pantone **5747 C**
- Bronze **#A67B40** — close to Pantone **4505 C** or a real bronze foil for hot-stamping
- Cream **#F5EDE0** — close to Pantone **9183 C** (or uncoated card)
- Terracotta **#C2592E** — close to Pantone **173 C**

For social / digital — use the hex values above directly. Backgrounds: cream. Headlines: Moss Deep. Body: Ink. Accents: Bronze.

Typefaces — both free on Google Fonts. Headlines/logo: **Fraunces** (medium 500, occasional italic for the brand mark). Body: **Inter** (400 regular, 600 for emphasis).
